Comments and Suggestions:

Part E.4. – WellStar is reporting only ED beds dedicated for trauma and patients that qualify for the Trauma Registry. WellStar Spalding Regional Hospital was not a designated trauma center in 2018 and thus had no dedicated ED trauma beds or trauma registry volume. WellStar previously reported trauma volumes based on ICD coding. Using ICD-10 codes, Spalding Regional Hospital had 7,954 trauma visits in 2018. The hospital used ICD 10 codes to determine Psych patients, used 0-17 for Peds patients, and all other were General ED beds for survey reporting purposes. The visit data reflect the types of cases that relate to the described bed/room type, regardless of where in the emergency department the patient visit took place. Part G.3 - Physicians who do not identify race are listed as multi-racial. Part G.4 - The hospital does not have the ability to fully track whether physicians on its medical staff are enrolled in Medicaid/PeachCare and Public Employee Health Benefit Plan.
