

# Butterfly Footprints Pregnancy & Infant Loss Support Group

Wellstar offers compassionate and professional support for those who have experienced a pregnancy loss, stillbirth or infant death. The Perinatal Infant Loss Love and Remembrance (PILLAR) program is here to offer care and support throughout your bereavement journey. No parent should suffer the loss of a baby alone. We are here to validate each child's life and to offer care and support throughout your bereavement journey.

## JOIN US IN PERSON
